

# SEATTLE

2 DAYS / 1 NIGHT

- **1 Night Hotel Accommodations in Greater Seattle**
- **1 Breakfast & 1 Dinner**
- **Guided sightseeing tour of Seattle** – Get to see it all! See the houseboats of Lake Union up close; learn more about the homegrown companies such as Starbucks; see where grunge got its start, learn why Seattle is a favorite for famous movies and TV shows and so much more!
- **Burke Museum of Natural History & Culture** – Start with a bang by visiting a place where student will learn about natural history and cultural heritage through a variety of exhibits.
- **Space Needle: Seattle’s most recognized landmark** – Visit the Observation Deck for the most amazing views of Seattle and beyond.
- **Leisure time at Seattle Waterfront** – As the piers along the waterfront were developed, the area quickly became the center of maritime commerce and eventually a premier tourist destination. Today it is a collection of attractions, restaurants and shops as well and the starting point for most cruise ships.
- **Bill Speidel’s Underground tour** – Participate in a walking tour beneath Seattle’s sidewalks and streets. As you roam the subterranean passages that once were the main roadways and first-floor storefronts of old downtown Seattle, you will learn stories that pioneers didn’t want you to hear. This is real history with a twist!
- **Future of Flight Aviation Center & Boeing Tour** – Enjoy a 90-minute Boeing tour where students will learn more about Boeing and watch jets being assembled on the factory floor below. This is a one-of-a-kind opportunity to view 747, 767, 777, and 787 jets being assembled on the Everett product line before they take to the sky.
- **All taxes & meal gratuities**

\*\* 1 complimentary package for every 10 paying passengers  
(based on sharing double room) \*\*

**From \$139.00 per person Quad occupancy**

### Consider enhancing your trip?

Why not stay for another day? There is so much to see and do.  
Here are some suggestions...

\* **Twilight Fans Tour** – You've read the books, you've seen the movies and you're still craving more? Head to the real Forks and immerse yourself in all things Twilight. Walk the hallowed grounds of Forks, setting of the Twilight book series. See the vampire house and stroll the Native American beach where Bella met Jacob.

\* **Active Volcano** – Travel to Mt. St. Helens National Volcanic Monument to explore the aftermath of the 1980 eruption—one of the largest and impactful in modern human history. The Mt. St. Helens Institute works closely with student groups providing guided climbs and hikes through the national forest plus connecting groups with the park through education, research and stewardship.

\* **Ride the Ducks of Seattle** – This is definitely a unique-fun way to see Seattle. Aboard an amphibious World War II vehicle, students get to see the waterfront, downtown Seattle shopping district, Pike Place Market and historic Pioneer Square. Then, *SPLASH* into Lake Union for a look at beautiful houseboats, yachts and the skyline. Many have said: you haven't seen Seattle until you've seen it from a Duck!

\* **Mt. Rainier** – Ascending to 14,410 feet above sea level, Mount Rainier stands as an icon in the Washington landscape. An active volcano, Mount Rainier is the most glaciated peak in the contiguous U.S.A., spawning six major rivers. Many educational programs are available.

\* **Pacific Science Center & IMAX Theater** – This is the place where you can inspire your students to a lifelong interest in science, math and technology by participating in one among many hands-on experiences. Travel back in time to the Mesozoic Era, where you'll meet seven moving, roaring, robotic dinosaurs in a lifelike environment. Enjoy year-round sunshine in the Tropical Butterfly House and so much more!

\* **Hiram M. Chittenden Locks** – Often called the Ballard Lock due to their location in Seattle's Ballard Neighborhood. These locks provide a link for boats between the salt water of Puget Sound and the fresh water of the Ship Canal. Come and see the fish ladder, built to allow salmon to pass between fresh and salt water, and to navigate the locks. Glass panels below the water line make it possible to watch the fish.

This is only a sample itinerary and can be customized to meet your group's needs.
